

Faculty Position in the Research Institute for Microbial Diseases,

Osaka University

[Red text: partially changed on June 26, 2023]

Outline	Department of Regulation of Infectious Cancer (to be expected on July 1, 2023) focuses on human viral cancers, aiming to elucidate the pathogenesis, identify therapeutic targets based on the pathogenesis, and clarify the physiological significance of the phenomena exposed under special circumstances. In particular, we are focusing on the mechanisms of cancer microenvironment formation that are unique to humans. We are looking for candidates with research experience in cancer biology and immunology who can contribute to the development of this research. We welcome inquiries regarding our research topics and policies.
