Title

New regulators of endothelial vWF secretion: its implications in vascular inflammation, thrombosis and bleeding.

Date

Monday, Oct. 1st, 2018 5:00pm-

Venue

Biken Hall, 1st floor, Main Building, RIMD
微生物病研究所本館 1 F 微研ホール

Speaker

Dr. Jincal Luo

Laboratory of Vascular Biology

The Institute of Molecular Medicine (IMM), Peking University.

Abstract

Dr. Luo has been focusing on endothelial exocytosis related to bleeding/thrombosis and vascular inflammation as well as signal transduction in angiogenesis/lymphangiogenesis related to ischemia and tumor. He is now an associate editor of *Frontiers in Physiology and Cancer Science*. Recently, his group has published research articles in prestigious journals such as *PNAS*, *Cell Res*, *Nat Commun* and *Blood*, and invited reviews in *Trends Cell Biol* and *Cardiovasc Res*.

Host

Prof. Nobuyuki Takakura (Dept. Signal Transduction)

高倉伸幸 教授 (情報伝達分野)

セミナーは英語で行われます。

※このセミナーは医学系研究科修士・博士課程の単位認定セミナーです。
