

**Faculty Position in the Research Institute for Microbial Diseases,
The University of Osaka**

Outline	<p>In the Department of Microbial Regulation, we are conducting research aimed at elucidating and overcoming the mechanisms of onset of various diseases, including immune disorders, through a detailed understanding of the human microbiome. This recruitment seeks two assistant professors who are enthusiastic about this research, using metagenomic analysis with next-generation sequencers and gnotobiotic animals. We are seeking individuals with flexible thinking who will bring about significant advances in research. In addition to research, the successful candidate will also be involved in graduate school and undergraduate education. Inquiries regarding research content and direction are welcome.</p>
